

New From Biochrom

Easy to use: FBS-Superior from Biochrom

In order to even the usual variations of the biological characteristics of FBS batches, Biochrom offers with FBS Superior a standardized quality serum. Due to the addition of selected synthetic supplements, a continuous high level of quality is guaranteed.

Manage routine cell culture in the future without any need to test FBS batches, and use the Biochrom FBS that provides constant quality and excellent growth-enhancing characteristics.

On the next testing, also ask for the FBS Superior and convince yourself of the high quality and the benefits, which offers the FBS Superior.

Cat. Nr. S 0613 100 ml
Cat. Nr. S 0615 500 ml

FBS Superior

- Once tested, the FBS provides a balanced constant growth profile
- Save further testing in the future
- The costs for the FBS Superior are the same compared to usual EU-approved FBS
- FBS Superior is always available
